Which machine for which job?

Pick by the job first, then by pressure and flow. Higher pressure lifts stubborn dirt; higher flow rinses faster and clears pipes. Tell us what you want to clean and your power supply, and we will match the model.

Machine	Power	Working pressure	Flow	Page
 ZJ-series high-pressure washer	2.4 – 11 kW	90 – 110 bar	10 – 25 L/min	04
 ZS-series intelligent high-pressure water unit	30 kW	100 – 160 bar	95 – 145 L/min	05
 ZY-series diesel pipe dredge machine	7 – 36 HP	110 – 250 bar	16 – 72 L/min	06
 ZY-series gasoline pipe dredge machine	7 – 36 HP	160 bar	16 – 72 L/min	07
 JZ-series pressure washer skid unit	2.4 – 11 kW	110 – 250 bar	10 – 25 L/min	08
 ZL-series high-temperature washer (SUS304)	3 – 11 kW	110 – 160 bar	11 – 25 L/min	09
 ZS-series intelligent fog making system	5.5 – 10 kW	70 – 100 bar	40 – 52 L/min	10

Washing

ZJ wheeled washers, JZ skid units for wash bays, and ZL hot-water washers for sanitising.

Fog and cooling

ZS water units and fog systems for misting, livestock cooling and dust suppression.

No power on site

ZY diesel and petrol pipe dredgers for drains, pipes and heavy equipment in the field.
