

CYLINDER MOWER

Control Armrest

Simple operation, easy to use.

Fuel Tank

Features a large-capacity fuel tank to reduce refueling frequency and enhance mowing efficiency.

Engine

A powerful high-performance engine that takes mower power to a new level.

Z30 // Z25 // Z20 // S20 // S17

Cylindrical lawn mower for healthier turf and easier soil care. Durable cutting system and stable frame provide efficient penetration to relieve soil compaction and improve airflow, water, and nutrient absorption.

✓ Durable & Reliable

Built with robust components for consistent performance and a long service life in daily professional use.

✓ Precision Trimming

Allows for accurate mowing around obstacles, edges, and in narrow passages.

✓ Compact & Maneuverable

Its small footprint and agile design enable smooth operation in tight spaces and along borders.

Striped Effect

The cylinder mower employs a set of sharp, rotating blades to create a striped effect.

Durable Gearing

Provides long life and first-class durability. The gearing is lubricated for life.
