

DLFT fertiliser tank

FERTIGATION

A pressure tank that feeds liquid or dissolved fertiliser into the irrigation line, so nutrients go out with the water. Sizes from 50 to 500 litres.

- Steel pressure tank with a quick-opening filler lid
- Connects across the main line to dose fertiliser with the irrigation water

DIMENSIONS

Model	Capacity (L)	D (mm)	H (mm)	H1 (mm)
DLFT-50	50	377	785	400
DLFT-100	100	426	1050	600
DLFT-200	200	530	1350	900
DLFT-300	300	630	1450	1000
DLFT-500	500	800	1500	900
