

STAND-ON LEAF BLOWER

SLBH22 // SLBH23 // DTBH22 // DTBH23
LB1/2 // TLBSU25

Featuring a robust engine, high-capacity airflow system, and operator-oriented platform, this unit delivers reliable performance for professional grounds care and landscape maintenance.

Pure Innovation

Our blowers feature a unique design with wheels positioned in front of the impeller head, allowing unobstructed airflow for maximum efficiency and consistent performance.

High-Power Airflow Performance

High-output airflow efficiently clears large areas of leaves and light debris.

The air outlet supports 360° horizontal electric adjustment with no blind spots and $\pm 17^\circ$ vertical adjustment, covering the cleaning area in all directions.
