

SOIL, TURF & GROUNDS CARE

This range of garden equipment is engineered to improve efficiency, ensure effective operation, and promote turf health. Together, these tools provide a comprehensive, integrated solution for maintaining healthy lawns in both residential and commercial environments.

Euro 5

Lawn Aerator

Provides lightweight aeration to revitalize roots, ideal for regular lawn maintenance.

Depth	Width	Spacing
90 mm	410 mm	95 mm

B&S XR950

Tackles both hard and soft terrain, delivering uniform coring for efficient operation in an all-in-one lawn care solution.

Efficient & Easy to Operate

Healthier Turf, Cleaner Finish

All-in-One Lawn Maintenance

Efficient Care Lawn Revitalized

Equipped with easy-steer technology for flexible and efficient operation in landscaped areas.

Depth	Width	Spacing
70 mm	673 mm	42 tines

B&S XR950

With its high-performance engine and easy-steer design, it delivers efficient, stable, and smooth lawn aeration on any terrain.

Professional Powertrain

Its 6.5 HP engine delivers a stable 4.9 kW output for reliable performance.

Highly Efficient Deep Aeration

The 19 mm hollow tines penetrate 70 mm deep to loosen soil and boost root growth.

Compact & Maneuverable

Its 902 mm body enables easy access to tight spaces for precise operation.
